

PATIENT INFORMATION

HYDROTHERAPY - LEG EXERCISES

Hydrotherapy exercise – Patient information

You have been provided with this exercise leaflet following a course of outpatient hydrotherapy.

Please only complete the exercises you have been guided to do by your physiotherapist being mindful of any specific modifications made for your personal circumstances.

SAFETY

If you experience sudden shortness of breath, chest pains, angina or dizziness STOP exercising and contact your doctor.

Stop if an exercise causes you pain. Next time do fewer repetitions and if still painful, stop the exercise and talk to your physiotherapist if possible.

Equipment

Although you may have used a variety of equipment with your physiotherapist in our hydrotherapy pool, this may not be available at your local swimming pool. Therefore we are able to advise alternatives or equipment you can purchase.

This is a pool woggle (or noodle) and can be purchased from most sports suppliers (this is mentioned during the leaflet).

Leg Swinging

Swing your leg forwards and back.
Add ankle weight/ float to progress.

©Physiotools

Leg Swinging

Swing your leg from side to side.
Add ankle weight/ float to progress.

©Physiotools

Box step ups

Holding on to the pool hand rail if needed – step up onto the box and back down again – alternate the leading leg.

Variations:

- Remove/reduce hand support on pool rails.
- Hold weight in both hands.
- Add weight to ankles.
- High knees.

SPOTEBI.COM

Walking

Hold onto the side rail, walk along.

Variations:

- Fast/ Slow
- Toe walking
- Heel walking
- High knees
- Walk backward/ sideways.

©Physiotools

Progression: Walk the width of the pool using a float to balance if required – repeated the same variations as above.

Leg extensions

Lying on your back holding the handrail / side of the pool on a plinth if there is one available – push one leg down into the water keeping your knee straight, then repeat with the other leg.

Progression: Place each leg into a rubber ring to progress.

©Physiotools

Standing balance

In standing using the pool bars/ side for support if needed.

- Stand on one leg maintaining your balance (then swap leg).
- Stand with both feet close together side by side.
- Stand with foot in front of the other (then swap).

©Physiotools

On your front

Lying on your front holding onto the pool bars or plinth. Kick your legs up and down – keeping your straight legs. To progress, place your legs into a rubber ring.

- Push your leg down with your leg straight.
- Push your leg down with your leg bent.

Woggle

Sitting on the woggle/ noodle

Attempt to maintain your balance and take your feet off the floor.

Progression 1:

Lift one arm out of the water (then swap arms).

Progression 2:

Put woggle between legs. Cycle your legs like on a bicycle whilst maintaining your sitting balance.

- **Wyre Forest Leisure Centre – 01562 515151**
- **Droitwich Leisure Centre – 01905 771212**

If your symptoms or condition worsens, or if you are concerned about anything, please call your GP, 111, or 999.

Patient Experience

We know that being admitted to hospital can be a difficult and unsettling time for you and your loved ones. If you have any questions or concerns, please do speak with a member of staff on the ward or in the relevant department who will do their best to answer your questions and reassure you.

Feedback

Feedback is really important and useful to us – it can tell us where we are working well and where improvements can be made. There are lots of ways you can share your experience with us including completing our Friends and Family Test – cards are available and can be posted on all wards, departments and clinics at our hospitals. We value your comments and feedback and thank you for taking the time to share this with us.

Patient Advice and Liaison Service (PALS)

If you have any concerns or questions about your care, we advise you to talk with the nurse in charge or the department manager in the first instance as they are best placed to answer any questions or resolve concerns quickly. If the relevant member of staff is unable to help resolve your concern, you can contact the PALS Team. We offer informal help, advice or support about any aspect of hospital services & experiences.

Our PALS team will liaise with the various departments in our hospitals on your behalf, if you feel unable to do so, to resolve your problems and where appropriate refer to outside help.

If you are still unhappy you can contact the Complaints Department, who can investigate your concerns. You can make a complaint orally, electronically or in writing and we can advise and guide you through the complaints procedure.

How to contact PALS:

Telephone Patient Services: 0300 123 1732 or via email at: wah-tr.PET@nhs.net

Opening times:

The PALS telephone lines are open Monday to Thursday from 8.30am to 4.30pm and Friday: 8.30am to 4.00pm. Please be aware that a voicemail service is in use at busy times, but messages will be returned as quickly as possible.

If you are unable to understand this leaflet, please communicate with a member of staff.
