

PATIENT INFORMATION

USING YOUR CORNET

Chest physiotherapy helps to clear mucus from your lungs and keep your lungs healthy.

The Cornet is a device that can be used to aid chest clearance by:

- **Keeping your airways open as you breathe out**
- **Providing vibrations in your lungs which help to loosen the mucus**

The dial at the top of the Cornet can be adjusted so that you feel the most benefit from it.

How to use your Cornet:

- Wash your hands before you start
- Breathe in slowly
- Hold your breath for a count of 3
- Breathe out steadily through the Cornet. You should feel the vibrations in your chest and hear a noise! Try to keep your cheeks still.
- Repeat thistimes
- After each set, dohuffs (using a tube if you find it easier), and a cough if you feel any mucus on your chest.
- Repeat this forsets

When to use your Cornet:

If you are taking inhaled medication:

You should take before using your Cornet

You should takeafter using your Cornet

Other nebulised medication should be taken.....

How often should you use your Cornet:

- When you are well times a day
- When you are showing signs of infection or are unwell,times a day

It is advisable to clean the device after each use.

How to clean your Cornet:

- Disconnect the mouthpiece with the valve hose from the curved tube and insert the drying spatula into the hose.

Important: Throughout the cleaning process, the drying spatula must keep the valve hose open to prevent it from sticking together.

- All parts may be cleaned in a vaporizer, by means of steam or in boiling water at temperatures between 121°C and 134°C.

Further cleaning possibilities:

RC-Clean cleaning bag

Disassemble the RC-Cornet® as described. Place all parts in the cleaning bag. Further instructions can be found on the RC-Clean cleaning bag

Drying

- During the drying process, the drying spatula is designed to hold the valve tube open to prevent the tube from sticking.

Reassemble when completely dry with the insertion aid.

If your symptoms or condition worsens, or if you are concerned about anything, please call your GP, 111, or 999.

Patient Experience

We know that being admitted to hospital can be a difficult and unsettling time for you and your loved ones. If you have any questions or concerns, please do speak with a member of staff on the ward or in the relevant department who will do their best to answer your questions and reassure you.

Feedback

Feedback is really important and useful to us – it can tell us where we are working well and where improvements can be made. There are lots of ways you can share your experience with us including completing our Friends and Family Test – cards are available and can be posted on all wards, departments and clinics at our hospitals. We value your comments and feedback and thank you for taking the time to share this with us.

Patient Advice and Liaison Service (PALS)

If you have any concerns or questions about your care, we advise you to talk with the nurse in charge or the department manager in the first instance as they are best placed to answer any questions or resolve concerns quickly. If the relevant member of staff is unable to help resolve your concern, you can contact the PALS Team. We offer informal help, advice or support about any aspect of hospital services & experiences.

Our PALS team will liaise with the various departments in our hospitals on your behalf, if you feel unable to do so, to resolve your problems and where appropriate refer to outside help.

If you are still unhappy you can contact the Complaints Department, who can investigate your concerns. You can make a complaint orally, electronically or in writing and we can advise and guide you through the complaints procedure.

How to contact PALS:

Telephone Patient Services: 0300 123 1732 or via email at: wah-tr.PET@nhs.net

Opening times:

The PALS telephone lines are open Monday to Thursday from 8.30am to 4.30pm and Friday: 8.30am to 4.00pm. Please be aware that a voicemail service is in use at busy times, but messages will be returned as quickly as possible.

If you are unable to understand this leaflet, please communicate with a member of staff.
