

## **FREEDOM OF INFORMATION RESPONSE**

**FOI 2466**

**Liver disease**

---

1. Age and sex of each of the youngest five patients treated for liver disease in each of the past three years - 2012, 2013, 2014.

2. Of these, were any suspected or found to be linked to their consumption of alcohol?

Due to small numbers, we are applying an exemption under section 40(2) of the FOI Act as release of these data would be unfair on the patients concerned.
