

FREEDOM OF INFORMATION RESPONSE

FOI 3433

Diabetes

How many diabetes-related amputations have there been over the last five years?

Please break down by calendar year, for:

2011

2012

2013

2014

2015

2. Of the diabetes related amputations above, how many of the patients were aged 25 or under? Please break down by years stated above.

3. How many diabetes related amputations were recorded in patients under the age of 18?

Again, please break down by the years stated above.

We are unable to categorically state whether any amputation is directly related to the diabetes unless we review all the notes of all patients. We are therefore applying an exemption under section 12 (cost).
