

PATIENT INFORMATION

FUNCTIONAL RESTORATION PROGRAMME

What is the Functional Restoration Programme?

This is a rehabilitation programme for patients with persistent or chronic spinal pain. It aims to explain chronic pain, improve physical function, increase activity levels and improve pain-coping strategies. This type of programme is recommended by NICE (the National Institute for Clinical Excellence) to help manage spinal pain.

What does the Programme consist of?

You will be assessed for the Programme by a senior physiotherapist at Worcester Royal Hospital. Each programme is run in small groups (adults both men and women) by specially trained physiotherapists at the Worcestershire Royal Hospital.

Areas include:

- Understanding pain
- Goal Setting
- Pacing techniques
- Handling unhelpful thoughts and fears
- Managing a flare up
- Relaxation techniques

After each talk / discussion there will be an exercise session comprising gentle exercises in the hydrotherapy pool individually tailored to your capabilities. There will be one session of exercises on dry land.

How often do I need to attend?

The programme runs weekly for 6 weeks. We will ask you to complete some questionnaires at the beginning and end of the programme in order to evaluate and improve the service.

Will it hurt?

The aim of the programme is to improve physical function, not to reduce pain. You may feel more discomfort or soreness after the first couple of sessions but this usually improves as you continue the course. Pain can reduce after the programme if you continue the exercises and put into practice the coping strategies you have learnt.

What should I wear?

You will need a swimming costume and towel for the hydrotherapy sessions. It is advised that you wear loose, comfortable clothing and trainers for the dry land exercises and relaxation.

It is not necessary to be able to swim to attend hydrotherapy but you must be medically fit enough to enter the pool. You may also wish to bring a bottle of water.

What happens after the programme finishes?

We will write to your GP and the referring doctor, if different, to inform them of your attendance and progress.

Six months after you have finished the programme, a questionnaire will be sent to you by post. Please complete it and return to us in the stamp addressed envelope provided. This will help us assess whether the programme is achieving its aims, and show the commissioners (who purchase all services in the NHS including this programme) how helpful it is in managing persistent pain.

We ask that you:

- Attend all sessions, and come with an open mind.
- Ask any questions you want
- Do all exercises regularly
- Complete all questionnaires.

Here are a few comments from our satisfaction survey

“I think the service offered is good, informative and useful to me.”

“The group therapy has been very informative and enjoyable. It has been good to be with people in a similar situation to myself.”

“Have learnt a lot about pain management.”

“I have been a lot happier and found the course to be very helpful.”

CONTACTS

Physiotherapy Department
Kidderminster Hospital
Bewdley Road
Kidderminster
DY11 6RJ
Tel: 01562 513066

If your symptoms or condition worsens, or if you are concerned about anything, please call your GP, 111, or 999.

Patient Experience

We know that being admitted to hospital can be a difficult and unsettling time for you and your loved ones. If you have any questions or concerns, please do speak with a member of staff on the ward or in the relevant department who will do their best to answer your questions and reassure you.

Feedback

Feedback is really important and useful to us – it can tell us where we are working well and where improvements can be made. There are lots of ways you can share your experience with us including completing our Friends and Family Test – cards are available and can be posted on all wards, departments and clinics at our hospitals. We value your comments and feedback and thank you for taking the time to share this with us.

Patient Advice and Liaison Service (PALS)

If you have any concerns or questions about your care, we advise you to talk with the nurse in charge or the department manager in the first instance as they are best placed to answer any questions or resolve concerns quickly. If the relevant member of staff is unable to help resolve your concern, you can contact the PALS Team. We offer informal help, advice or support about any aspect of hospital services & experiences.

Our PALS team will liaise with the various departments in our hospitals on your behalf, if you feel unable to do so, to resolve your problems and where appropriate refer to outside help.

If you are still unhappy you can contact the Complaints Department, who can investigate your concerns. You can make a complaint orally, electronically or in writing and we can advise and guide you through the complaints procedure.

How to contact PALS:

Telephone Patient Services: 0300 123 1732 or via email at: wah-tr.PET@nhs.net

Opening times:

The PALS telephone lines are open Monday to Thursday from 8.30am to 4.30pm and Friday: 8.30am to 4.00pm. Please be aware that a voicemail service is in use at busy times, but messages will be returned as quickly as possible.

If you are unable to understand this leaflet, please communicate with a member of staff.
